

ICIS Newsletter November 2017

Dear colleagues

Greetings from Switzerland. Please find herewith our November 2017 Newsletter:

ICIS Board Meeting at ASH 2017

The annual ICIS board meeting will be held on Friday, December 8, 2017 in Atlanta, USA.

The minutes of the board meeting will be published after the meeting in 2018.

6th ICIS Expert Meeting in Switzerland, September 2018

We regret to inform you that due to insufficient financial support we have not been able to reach the goal of sponsorship and therefore had to cancel the 6th ICIS ITP Expert Meeting 2018. We will discuss the format of this traditional meeting and welcome comments from you (please email to itpbasel@unibas.ch).

All our scientific projects are ongoing and activities and news will be published on our homepage www.itpbasel.ch as usual.

Adult patients with ITP to be registered in PARC-ITP

Please be aware that in the ongoing online PARC-ITP Registry (Pediatric and Addult Registry of Chronic ITP) also adult patients may be included. We want to encourage ICIS investigators to continue registering children and adults. We invite adult (and pediatric) hematologists to contact our data manager Caroline Martin Asal (itpbasel@unibas.ch) to be an active investigator and enter their patient's data into the registry. Please contact us should you have questions or comments.

Yours sincerely
