

ICIS Newsletter December 2021

Dear colleagues

Please find herewith our December 2021 Newsletter:

Thank you so much!

We thank all our colleagues on every continent for their support and collaboration and for sharing their data with us. Your effort is of high value in the field of research in ITP.

We wish you and your families all a good rest of the year, a Merry Christmas and all the best for a healthy and fruitful New Year.

PARC-ITP

The PARC-ITP Registry is open and should reflect current practice of the management of children and adults with ITP. Please continue to register patients (children and adults) with newly diagnosed ITP. For details please contact itpbasel@unibas.ch, thank you.

ICIS board meeting

Due to the COVID-19 pandemic the ICIS board meeting was held virtually. In summary, all members agreed to the agenda points and future projects.

Closure of Splenectomy Registry

The ICIS Splenectomy Registry, opened in 1998, has been closed by the end of December 2021.

PARC-ITP Registry to use for publications

Data of our ICIS projects may be further analyzed. Please contact us on itpbasel@unibas.ch for further details.

Best regards from Switzerland, yours sincerely
